

AVK VALVE INSTALLATION TRACKER

AVK VALVE INSTALLATION TRACKER

THE ASSET
TRACEABILITY
PACKAGE
FOR VALVES

Expect... **AVR**

AVK VALVE INSTALLATION TRACKER IS THE NEW **ASSET MANAGEMENT SYSTEM*** FROM AVK. UTILISING A NEW, PURPOSE BUILT, USER FRIENDLY MOBILE APP & WEB PORTAL.

AVK valve installation tracker uses a QR code platform, designed to give full traceability of your assets providing the data on each installed valve, and gives the opportunity to review the quality of the installation. This, combined with a unique GPS pin location and a picture of each installation, ensures that you have a complete, accurate and auditable record of every valve installed. Furthermore, all the data recorded can be exported into standard data formats for integration into the clients existing mapping systems.

* Patent pending.

FULL TRACEABILITY IN A FEW SIMPLE STEPS...

The QR code is generated when the valve successfully passes all the relevant test procedures. It assigns a unique serial number for the product which is linked to the full material and test records. When installed the data record becomes complete from raw material to accurate position and application.
