

# AVK UK SERIES 701 REINFORCED NYLON AIR VALVES 100% CORROSION FREE!

The AVK Series 701 water and waste water air valves manufactured with a 100% reinforced nylon body, improving whole life cost. Minimum of 50% saving on installation time.

## BENEFITS:

- Reinforced nylon body and base - 100% corrosion free.
- Market leading minimum sealing pressures 0.05 Bar.
- 10 Bar and 16 Bar options available.
- Enhanced performance - small orifice discharge 10 times greater than conventional units.
- Light weight for easy on-site handling.

## CHAMBERED VERSION:

- Fabricated off-site for quicker site installation.
- Reduced installation costs by approx. 25%
- Integral isolator - quick shut off to the valve.
- Chambered versions have a quick release valve assembly connection for future ground level maintenance - no confined space entry.
- Odour control and inflow checks options available.
- Additional air valve chambered options available.
