

EXPECT... LONG LASTING INNOVATIONS

INTRODUCING PART ONE OF THE EXTENSIVE FITTING SOLUTIONS OFFER FROM **AVK**

COUPLINGS AND FLANGE ADAPTORS

AVK manufactures a wide range of both universal and fabricated products to suit the majority of different pipe materials. The product offer consists of:

- Couplings
- Stepped Couplings
- Flange Adaptors

The Supa® Universal family of Series 600 products offers:

- A wide tolerance sealing range of straight couplings, step couplings and flange adaptors
- Size range DN40 to DN400
- Suitable for connecting different pipeline materials such as ABS, asbestos cement, cast iron, ductile iron, epoxy coated carbon steel, GRP and PVC.

Series 601
Straight Coupling

Series 602
Stepped Coupling

Series 603
Flange Adaptor

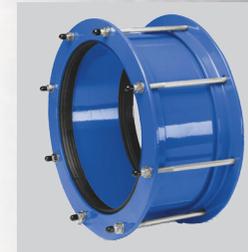

Series 603/4
Flange Adaptor

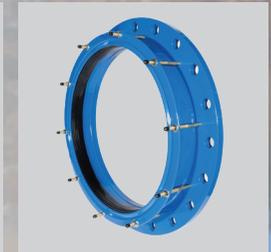

The AVK Fabricated product range, S258, S259 & S260, offers:

- Straight couplings, step couplings & flange adaptors
- Size range DN350 to DN1600
- Suitable for connecting the majority of different pipeline materials such as ABS, asbestos cement, cast iron, ductile iron, epoxy coated carbon steel, GRP and PVC for both water and waste water applications.

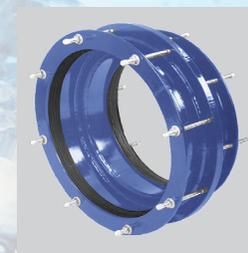

So whether you are connecting plain ended pipes or making a flanged connection the fabricated range has it all.

Series 258
Straight Coupling

Series 260
Flange Adaptor

Series 259
Stepped Coupling

Quality

All our products are designed and manufactured under our BS EN ISO 9001 quality management system.

Availability

Supa® Universal S601 & S603 couplings and adaptors are typically held in stock whilst the fabricated range S258, S259 & S260 are manufactured to order within a short lead-time.

Fast-track deliveries are available upon request.
